Dear Hitesh-san,

In accordance with the requirements for the RR VT test setup, we need to procure various components from online retailers, including DigiKey, RS Components, Sharvi Electronics, Misumi, Bürklin, and Robu.in. Additionally, we will also need to order wire bundles from a local vendor for the wire harness.

The estimated total cost for the required materials is approximately INR 83,000 (including Custom Duties).

We kindly request you to arrange an advance amount so that we can proceed with placing the orders and avoid delays in the setup activities.
